

Dated 28 January 2016

**Policy for Students and Practitioners regarding: Free Review of Certificate III and Masters 10 day Training.**

You can review your training with any International Association of Psychosomatic Therapists (INTAPT) and Psychosomatic Therapy College (PTC) registered Psychosomatic Therapy Teachers at their discretion, including Internationally, under the following guidelines:

- Unlimited reviewing can be done within 12 months from the completion of day 10. (At the discretion of the teacher: in terms of limited space available for reviewing students)
- Once a student has completed the requirements of their logbooks & gained certification (within the allocated 12 months) there is an additional 12 months available to them.

When a reviewing student comes from a different teacher, a record of the student's initial 10 day training must be verified with the Psychosomatic Therapy College (PTC) admin office for their records.

Once the students are beyond their two years of completion of their 10 day training there is 50% of the full course fee applied for students who wish to repeat.

Students cannot re-sit the training unless they have fully finalized their student fees with their original teacher – This is a prerequisite of the Psychosomatic Therapy College (PTC), if you review with your original teacher it is at their discretion.

Please submit a copy of your 'Certificate of Attendance' to the Teacher you are wishing to review with. Each teacher has different policies around your contribution to the course and the amount of days you can attend. Please clarify with each teacher.
